

With Madrid, Spain, as the scenery, we welcomed the **10<sup>th</sup> International Conference on Mobile Learning 2014** (during **28 February – 2 March, 2014**).

This conference was organized by the International Association for Development of the Information Society (IADIS).

The Mobile Learning conference sought to provide a forum for the presentation and discussion of mobile learning research which illustrate developments in the field. In particular, but not exclusively, aimed to explore the theme of mobile learning under the following topics: Learning analytics and mobile learning, Cloud computing and mobile learning, Pedagogical approaches, models and theories for mLearning, mLearning in and across formal and informal settings, Strategies and challenges for integrating mLearning in broader educational scenarios, User Studies in mLearning, Learner mobility and transitions afforded by mlearning, Socio-cultural context and implications of mLearning, Mobile social media and user generated content, Enabling mLearning technologies, applications and uses, Evaluation and assessment of mLearning, Research methods, ethics and implementation of mLearning, Innovative mLearning approaches, Tools, technologies and platforms for mLearning and mlearning: where to next and how?

The Mobile Learning Conference 2014 received 128 submissions from more than 29 countries. Each submission had been anonymously reviewed by an average of 4 independent reviewers, to ensure that accepted submissions were of a high standard. As a result only 28 full papers were approved which meant an acceptance rate of 22%. A few more papers were accepted as short papers, reflection papers and a poster.

The best papers were selected for publishing as extended versions in:

- ❖ the International Journal of Mobile and Blended Learning (ISSN: 1941-8647).

In addition to the papers' presentations, this edition also included a keynote presentation given Professor Steve Benford, Professor of Collaborative Computing in the Mixed Reality Laboratory at the University of Nottingham, UK, and also featured a Panel that was chaired by Nicole M. Kendall, Tennessee State University - Nashville, TN, USA and Robbie K. Melton, Tennessee Board of Regents - Nashville, TN, USA

### Keynote Presentation:
