

The 13th International Conference on Mobile Learning was hosted in Budapest, Hungary (10 – 12 April, 2017).

This conference was organized by the International Association for Development of the Information Society (IADIS).

The Mobile Learning conference sought to provide a forum for the presentation and discussion of mobile learning research which illustrate developments in the field. In particular, but not exclusively, aimed to explore the theme of mobile learning under the following topics: Learning analytics and mobile learning, Cloud computing and mobile learning, Pedagogical approaches, models and theories for mLearning, mLearning in and across formal and informal settings, Strategies and challenges for integrating mLearning in broader educational scenarios, User Studies in mLearning, Learner mobility and transitions afforded by mlearning, Socio-cultural context and implications of mLearning, Mobile social media and user generated content, Enabling mLearning technologies, applications and uses, Evaluation and assessment of mLearning, Research methods, ethics and implementation of mLearning, Innovative mLearning approaches, Tools, technologies and platforms for mLearning and mlearning: where to next and how?

The Mobile Learning 2017 received 104 submissions from more than 27 countries. All submissions were anonymously evaluated by an average of 4 independent reviewers, to ensure that accepted submissions were of a high standard. Consequently only 19 full and short papers were approved, which meant an acceptance rate of 18%. A few more papers were accepted as reflection papers, posters, panels and doctoral consortium.

Extended versions of the best papers were selected to be published in:

- ❖ the International Journal of Mobile and Blended Learning (ISSN: 1941-8647).

In addition to the papers' presentations, the conference also featured a keynote presentation from an internationally distinguished researcher, Professor Dragan Gasevic, Chair in Learning Analytics and Informatics, The University of Edinburgh, Scotland, for accepting our invitation as keynote speaker.
