

The **1st edition of the Mobile Learning (ML) International Conference** was hosted in Qawra, Malta, during **28 to 30 June, 2005**.

The mission of this conference is to publish and integrate scientific results, thus acting as a catalyst within the emerging area of research on Mobile Learning. The conference called for original papers, full or short contributions, and posters.

Submissions were accepted under the following sixteen topics: Mobile Learning, PDAs in the Classroom, Remote Group Simulations, Science Teaching and PDA Field Experiments, Joint Data Acquisition, Mobile WWW-Connection, Learning Teacher Networks, Knowledge Sharing, Distributed Expertise, Mobile Consult, Access to Learning Communities, Collaborative Learning, Mobile Video Conferencing, Corporate Communication, Content Formats for PDA Distribution and Service Providers for Mobile Networks

The Mobile Learning 2005 Conference had 83 submissions from more than 20 countries. Each submission has been anonymously reviewed by an average of two independent reviewers, to guarantee the final high standard of the accepted submissions. Out of the papers submitted, 23 received blind referee ratings that signified acceptability for publication as full papers (acceptance rate below 28%), while some others were published as short papers and posters.

Keynote Presentation:

“WHAT IS MOBILE LEARNING AND HOW DO WE MAKE IT EFFECTIVE?”

by Professor William Winn College of Education, University of Washington, Seattle, USA

Keynote Presentation:

“UBIQUITOUS COMPUTING - USES OF PERSONAL INFORMATION IN THE AGE OF NETWORKED TECHNOLOGY”

by Dr Jan Blom, Nokia Research Center, Finland

Extended versions of the best papers were selected to be published as extended versions in the IADIS International Journal on WWW/Internet (ISSN: 1645-7641). Other Journals will also be contacted to publish extended versions of best papers.

The Mobile Learning Conference 2005 was published both in Book (ISBN: 972-8939-02-7) and CD-ROM (ISBN: 972-8939-04-3).
